# Data sheet

Hygienic profiles system for industrial refrigeration and healthcare, pharma and food industries. Complete with caps and flexible fins for hermetic seal, the system ensures high hygiene standards and excellent water and dirt resistance.

The hygienic profiles system allows to eliminate angles between wall and floor, where dirt and bacteria accumulate: this ensures easy and fast cleaning and disinfection, also with industrial cleaning machinery.

Sistema di profili sanitari per impiego in refrigerazione industriale e settore sanitario, farmaceutico e alimentare. Completo di tappi e dotato di alette flessibili per garantire una chiusura ermetica, assicura un elevato standard igienico e un'ottima tenuta all'acqua e allo sporco.

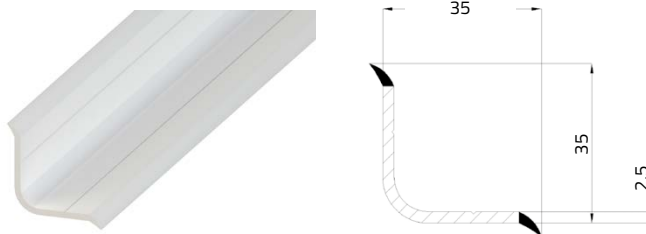

Il sistema di profili sanitari elimina gli angoli tra parete e pavimento, spazi nei quali si accumulano sporco e batteri: in questo modo è possibile garantire pulizia e disinfezione facile e veloce, anche con macchinari di pulizia industriale.
